

Weekly Report

05/25/2015-05/31/2015

Research

This week, I successfully defend my graduate thesis and my thesis "移动转移图:人类移动行为的可视化方法" will be named outstanding thesis. Besides, I start reading the 11th chapter of 《统计学习基础》. Conditional random field have close relationship with hidden Markov model. Next week, I will attend a graduation trip from Wednesday to Friday.

Plan for next week

- Find cases of our storyline project.
